**Report of Independent Certified Public Accountants on
Internal Control over Financial Reporting and on Compliance and Other Matters Based on
an Audit of Financial Statements Performed in Accordance with *Government Auditing
Standards***

Board of County Commissioners
Frederick County, Maryland

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Frederick County, Maryland, as of and for the year ended June 30, 2007, which collectively comprise Frederick County, Maryland's basic financial statements and have issued our report thereon dated December 10, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Frederick County, Maryland's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Frederick County, Maryland's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Frederick County, Maryland's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, of a combination of control deficiencies, that adversely affects Frederick County, Maryland's ability to initiate, authorize, record process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Frederick County, Maryland's financial statements that is more than inconsequential will not be prevented or detected by Frederick County, Maryland's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Frederick County, Maryland's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Frederick County, Maryland's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we have reported to management of Frederick, County, Maryland, in a separate letter dated December 10, 2007.

This report is intended solely for the information and use of the audit committee, management, the Board of County Commissioners and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Report of Independent Certified Public Accountants on
Compliance with Requirements Applicable to Each Major Program and on
Internal Control over Compliance in Accordance with OMB Circular A-133**

Board of County Commissioners
Frederick County, Maryland

Compliance

We have audited the compliance of Frederick County, Maryland with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. Frederick County, Maryland's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Frederick County, Maryland's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Frederick County, Maryland's compliance with those requirements.

In our opinion, Frederick County, Maryland complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control over Compliance

The management of Frederick County, Maryland is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Frederick County, Maryland's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Frederick County, Maryland's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Frederick County, Maryland, as of and for the year ended June 30, 2007, and have issued our report thereon dated December 10, 2007. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise Frederick County, Maryland's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects in relation to the basic financial statements taken as a whole.

This report is intended for the information and use of the audit committee, management, the Board of County Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Exhibit II-B

FREDERICK COUNTY, MARYLAND
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the year ended June 30, 2007

(1) SCOPE OF AUDIT PURSUANT TO OMB CIRCULAR A-133

All federal award programs operated by the County are included in the scope of the OMB Circular A-133 (revised), "Audits of States, Local Governments, and Non-Profit Organizations". The single audit was conducted in accordance with the provision of The Single Audit Act of 1984, as amended by the Single Audit Act Amendment of 1996, OMB Circular A-133 (revised) and OMB Circular A-133 Compliance Supplement (April 1999 revision), as well as in accordance with generally accepted auditing standards. Compliance testing of all general requirements, as described in the Compliance Supplement, was performed. Compliance testing of specific requirements was performed for the following major federal award programs. These programs represent 27.4 percent of total expenditures of federal awards, which satisfies the criteria for Frederick County, which was determined to be a "low risk" auditee.

MAJOR PROGRAMS

CFDA#	Grant Description	Fiscal Year 2007 Federal Expenditures
20.205	Bridge Projects	\$ 1,645,595
20.507	Mass Transit/Capital Outlay	\$ 1,378,114
97.067	Homeland Security Grant Program	\$ 925,057
97.092	Repetitive Flood Claims	\$ 481,338
	Total Expenditures	\$ 4,430,104

The Department of Health and Human Services has been designated as the County's oversight agency for the OMB Circular A-133 audit.

The Frederick County Board of Education and Frederick Community College, as legally separate component units of Frederick County Government, are excluded from the scope of this single audit. Independent single audits are conducted for each of these component units. In addition, the Frederick County Health Department is also excluded from the scope of this single audit as it is covered under the State of Maryland's Single Audit.

Exhibit II-B

FREDERICK COUNTY, MARYLAND
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the year ended June 30, 2007

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County Accounting Department maintains the primary accounting records for grant monies. The transactions of these grants and entitlements are reported in governmental funds of the County and are, therefore, accounted for on the modified accrual basis of accounting.

The County reports the status of direct federal funds received to the respective federal agencies using the standardized Financial Status Report (FSR) for all nonconstruction projects or programs. OMB Circular No. A-102 (Amended August 1997) provides that even though the Federal grantor agency requires accrual information, if the grantee's (Frederick County) accounting records are not normally kept on the accrual basis, the grantee is not required to convert its accounting system, but may develop the additional accrual information through analyzing documentation on hand. This is the procedure followed by Frederick County Government to prepare FSR's.

There is no standardized reporting procedure for the federal funds passed through by the State of Maryland. Reporting requirements vary depending upon the requirements of the State agency providing the funds.

BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards has been presented to inform County officials, grantor agencies and other users of grant information of the sources and uses of federal grant funds for the period ended June 30, 2007. This schedule has been prepared in accordance with accounting principles generally accepted in the United States of America. This schedule contains relevant financial information as would be presented on an FSR or other financial report for the respective period. Because these financial statements are presented on the basis of accounting as described above, certain amounts will not agree with those reported in the governmental funds of the County in its basic financial statements.

FREDERICK COUNTY, MARYLAND
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the year ended June 30, 2007

(3) DESCRIPTION OF MAJOR AWARDS

The funding received by the County is in the form of grants or loans. A grant is a contribution or gift of cash or other assets from another government to be used or expended for a specified purpose, activity, or facility. A loan from another government must be repaid over a specified period of time usually at a reduced rate of interest. The proceeds from a loan must also be expended for a specified purpose.

The following is a description of the major grants/loans received by Frederick County from the federal government and included in the Single Audit.

BRIDGE PROJECTS (20.205)

The objectives of the Highway Planning and Construction Cluster are to: (1) assist States in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System, including Interstate highways and most other public roads; (2) provide aid for the repair of Federal-aid highways following disasters; (3) foster safe highway design, and replace or rehabilitate structurally deficient or functionally obsolete bridges; and (4) to provide for other special purposes.

MASS TRANSIT/CAPITAL OUTLAY (20.507)

The objectives of this program are to assist in financing the planning, acquisition, construction, preventative maintenance, and improvement of facilities and equipment in mass transportation services. Operating expenses are also eligible in urbanized areas with a population of less than 200,000.

FREDERICK COUNTY, MARYLAND
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the year ended June 30, 2007

(3) DESCRIPTION OF MAJOR AWARDS (continued)

HOMELAND SECURITY GRANT PROGRAM (97.067)

The Homeland Security Grant Program (HSGP) is intended to improve and significantly enhance the ability of the Nation to prevent, deter, respond to and recover from, threats and incidents of terrorism and to enhance regional preparedness. The HSGP provides financial assistance to the States (and through the States to local governments) to support activities such as planning, equipment, training, and exercises to address critical resource gaps identified in the assessments and priorities outlined within each States' Homeland Security Strategy. States are encouraged to develop regional approaches to planning and preparedness and to adopt, as appropriate, regional response structures.

REPETITIVE FLOOD CLAIMS (97.092)

The Repetitive Flood Claims Program was authorized through the National Flood Insurance Act of 1968, as amended. Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004, Title I, Section 104, Public Law 108-264, 42 U.S.C. 4030. The program is administered by the U.S. Department of Homeland Security.

The objectives of the program are to assist States, Indian tribal governments, and communities reduce or eliminate the long-term risk of flood damage to structures insured under the National Flood Insurance Program (NFIP) that have one or more claims for flood damages through mitigation activities that are in the best interest of the National Flood Insurance Fund (NFIF).

States, Indian tribal governments and communities may apply for project grants that reduce or eliminate the long-term risk of flood damage to structures, insured under the NFIP, that have one or more claims for flood damages. This may include the acquisition of insured structures for the purpose of converting flood-prone land back to open space use.

FREDERICK COUNTY, MARYLAND

For the year ended June 30, 2007

(4) FINDINGS AND RECOMMENDATIONS

Any findings of noncompliance identified in connection with the 2007 Single Audit are disclosed in the Schedule of Findings and Questioned Costs. The Grantee's responses are included in the Schedule of Findings and Questioned Costs. However; there were no findings.

In addition, any findings reported in the 2006 Single Audit are disclosed in the accompanying Summary Schedule of Prior Year Findings and Questioned Costs.

FREDERICK COUNTY, MARYLAND
Schedule of Findings and Questioned Costs
For the year ended June 30, 2007

A. SUMMARY OF AUDITORS' RESULTS

1. The auditors' report expresses an unqualified opinion on the basic financial statements of Frederick County, Maryland.
2. No significant deficiencies in internal control were noted during the audit of the basic financial statements.
3. No instances of noncompliance material to the basic financial statements of Frederick County, Maryland, were disclosed during the audit.
4. No reportable conditions in internal control over major federal award programs are reported in the Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133.
5. The auditors' report on compliance for the major federal award programs for Frederick County, Maryland, expresses an unqualified opinion.
6. Audit findings relative to the major federal award programs for Frederick County, Maryland are reported in this Schedule.
7. The programs tested as major programs included:

Bridge Projects	20.205
Mass Transit/Capital Outlay	20.507
Homeland Security Grant Program	97.067
Repetitive Flood Claims	97.092

8. The threshold for distinguishing Types A and B programs was \$300,000.
9. Frederick County, Maryland, was determined to be a low-risk auditee.
