- II. The guest speaker was Shawn Dennison who spoke about disability inclusion in the workforce. Some of the points he made were: When speaking about Diversity, Equity and Inclusion if you are not

including disabilities you're not doing it right. A disability is an impairment that causes difficulty in doing the things most of us take for granted. 61 million adults in the US are living with a disability. To build an inclusive environment you must Employ, Enable, Engage and Empower persons with disabilities. (The average cost of an accommodation is only about \$500.00.) 4 ways to hire people with disabilities are: create an inclusive culture, broaden your talent practices, foster wider awareness and prioritize awareness for all. Connecting with local organizations is also important. Customized Employment is a win-win strategy that meets the needs of employers and job seekers.
