**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

Total revenues are \$530 million, which is 69.54% of budget as compared to this same time last year which was \$501 million or 73.64% of budget. This is a positive variance of about \$29 million. Property taxes are \$395.5 million which is 99.99% of budget and is \$22 million higher than last fiscal year. Property tax assessments continued to increase over the prior fiscal year. As of December 31, 2022, income tax revenue is \$98.5 million or 32.04% of budget as compared to \$93.6 million or 35.39% of budget last year. This \$4.8 million increase is primarily due to a higher than anticipated November distribution attributed in part to strength from withholding and estimated payments from third quarter tax year 2022. The Comptroller of Maryland Bureau of Revenue Estimates expects withholding growth to slow as the labor market recovery nears completion and as tighter monetary policy slows overall economic growth. Three of the four largest income tax distributions are made in the third and fourth quarter of each fiscal year.

Investment income as of December 31, 2022, is approximately \$4.4 million which is 218.93% of budget. In comparison, investment earnings were \$53,747 at this same time last fiscal year. This highly favorable variance is primarily due to a significant increase in MLGIP interest rates as well as an increase in invested pooled cash.

Recordation tax is at \$15.8 million or 54.67% of budget which exceeds the six month benchmark. As of the same period last year, recordation tax was at \$20.6 million or 88.23% of budget. This \$4.8 million decrease is due to a weakening housing market and higher mortgage interest rates due to inflationary impacts. Building, electrical, plumbing, and grading permits are likewise down from second quarter of last fiscal year by almost \$800,000.

**Highlights relating to expenditure variances from budget are as follows:**

Total expenditures are at 50.64% of budget or \$362 million, for the six months ended December 31, 2022. This is slightly above the 50% second quarter budget benchmark. In comparison, FY22 expenditures through second quarter were 49.62% of budget or \$324.8 million. Overall, expenditures are expected to be at budget by fiscal year end.

**Highlights relating to other financing sources/uses are as follows:**

Other financing sources (uses) are at approximately \$(43.2) million compared to \$(56.5) million at this point last year. The primary reason for this positive variance is a decrease in the transfer to the capital projects fund of \$15.3 million. In FY22, there was a large transfer for the Oak Street property acquisition and renovation (now referred to as Prospect Center).

Net change in fund balance	\$ -	\$ 5,161,899		\$ 8,789,137	

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

Recordation tax is slightly over the FY23 budget at 54.67% as of December 31, 2022. Year-to-date agricultural transfer tax collections total \$271,039, but only \$184,036 is currently being recognized as revenue, which is below the appropriated budget in the first half of FY23. Transfer tax collections are deferred and recorded as revenue as expenditures are incurred. Three easements funded by the Maryland Agricultural Land Preservation Foundation (MALPF) have settled and more are expected to be acquired in the second half of FY23. Revenue for this program is budgeted as agricultural transfer tax revenue and appropriated fund balance.

Department of Natural Resources includes the Rural Legacy and Conservation Reserve Enhancement Programs (CREP) budgeted at \$6.1 million. The FY23 Rural Legacy grant award of \$1.9 million was approved in December by County Council. The budget also includes \$1.3 million from the FY22 Rural Legacy Grant that continued into FY23.

Investment earnings are \$716,491 and include earnings from both pooled invested cash balances and investments held to finance future Installment Purchase Agreement (IPA) debt service principal payments.

**Highlights relating to expenditure variances from budget are as follows:**

Total expenditures are at 15.93% of budget for the six months ended December 31, 2022. Land expense is at 15.18% of budget and includes one Critical Farm settlement, three Maryland Land Preservation Foundation easements (MALPF), three Conservation Reserve Enhancement Program settlements (CREP), and seven Installment Purchase Agreements (IPAs). Additional settlements are planned to occur during the second half of the fiscal year.

Operating expenditures are at 27.49% of budget for the first half of FY23. This favorable variance is due to the \$500,000 appropriated for the Agriculture Innovation Grants, Rural Historical Preservation Grants and/or Homebuyer Assistance Programs. Out of the \$500,000 allocated for FY23, only \$113,000 in Agriculture Innovation Grants has been disbursed in the first half of the year. There is \$387,000 available for Rural Historic Preservation Grant Program or Homebuyer Assistance. The Rural Historic Preservation Grant Program has disbursed \$256,129 out of the committed \$657,696 from the FY21 and FY22 grant cycle. Payments are disbursed through the grant period and can take up to two years from the grant award. Applications are currently being accepted for the FY23 Rural Historic Preservation Grant Program.

**Highlights relating to other financing sources variances from budget are as follows:**

Transfers out to the Debt Service Fund are currently at 23.39% of budget at December 31, 2022. This fluctuates each year with the timing of the annual interest payments, principal payments and settlements of the Installment Purchase Program. Scheduled transfers out to the Debt Service Fund for May 2023 total \$6.2 million for Installment Purchase agreements principal and interest payments. Transfers out to the Fleet Fund will be made once a vehicle the Ag Preservation team is waiting for is purchased.

The County did not issue any of the budgeted \$6 million Installment Purchase Agreement debt for the first six months ended December 31, 2022, for this program as all settlements during this period have been paid to the landowners as lump sum payments. During FY23, we have allow landowners to choose between a lump sum payment or the 10- 20 year zero coupon bond.

Net change in fund balance	\$ -	\$ (24,102,585)		\$ (3,089,935)	

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

For the six months ended December 31, 2022, total revenues represent interest income on unspent bond proceeds. The 2021A Bonds earned \$797,304 with a remaining invested balance of \$45.4 million. The remaining investment earnings are related to the 2022A Refunding Bonds with a remaining invested balance of \$1.9 million.

**Highlights relating to expenditure variances from budget are as follows:**

Total expenditures are at 70.33% of budget for the six months ended December 31, 2022. This is a result of timing of debt service payments with the majority occurring in the first half of the year.

Debt service for Installment Purchase Agreement payments are at 23.88% of budget. Payments of \$6.1 million remaining in May of 2023 will absorb the remaining budget. Of that amount, \$6 million will be paid for maturing issues. This program began in 2003 with five of our 2003 agreements maturing. Remaining debt service for bonds is \$15.9 million and \$836,648 for leases.

Debt issue costs represent costs related to the issuance debt. No debt has been issued in the first half of FY23. Additional issue costs are anticipated with the closing of the Series 2023 General Obligation Bonds in May of 2023.

**Highlights relating to other financing sources/uses are as follows:**

Other financing sources include the transfers from other funds as well as debt issue proceeds. Premium of \$136,808 was budgeted in anticipation of the sale of the 2023 Series Bonds.

**Change in Fund Balance:**

The \$24.1 million decrease in fund balance as of December 31, 2022, is a result of the timing of the General Fund transfers. General Fund transfers are recorded as a percentage of budget, while other debt transfers are calculations from cash flows. The majority of debt service payments for the General Fund are paid in the first half of the year. The remaining budgeted transfers in the amount of \$24.8 million will be adequate to cover expenses for FY23.

**Future Debt Issuance:**

The County is scheduled to close on the Series 2023 General Obligation Bonds in May of 2023. The estimated project funding required is \$112.3 million.

Net Position as of December 31		\$ 704,406,315		\$ 686,046,769	

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of December 31, 2022 were \$24.7 million, representing 51.32% of the budget and are anticipated to continue on track to come in at or slightly above budget. Several revenue sources contribute to this favorable variance such as state grant revenue, septage processing revenues, meter revenues and inspection fees. In FY23, the State provided the County with excess grant funds in the amount of \$153,824 above the normal \$300,000 allotment for the enhanced nutrient removal operations. A state grant to assist with funding the Lewistown Waste Water Treatment Plant was also received in the amount of \$552,727. Septage processing revenues are above the benchmark at 65.3%. Meter revenues and inspection fees are above the benchmark at 72.09% and 195.18% respectively. These revenue sources are tied directly to construction within the county and are often difficult to project 12-18 months ahead.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses as of December 31, 2022 were \$23.3 million, representing 43.07% of the budget. Personnel is below budget due to staff vacancies. Repair and maintenance costs are well below budget due to conservative budgeting practices. At this time, no major repairs have been necessary. Operating expenses are below the benchmark largely due to operational overhead from the various plants coming in lower than anticipated.

Nonoperating revenues (expenses) are mostly comprised of investment earnings offset by interest expense paid on debt service. Year-to-date interest rates are very strong and therefore contribute to much higher than anticipated revenues. Miscellaneous nonoperating revenues include expenses related to non-capitalizable activities which are primarily funded by reserves or outside contributions.

**Solid Waste Management Enterprise Fund - (details are on Page 18)**

	<b>Amended Budget</b>	<b>Actual 12/31/22</b>	<b>% Actual to Budget</b>	<b>Actual 12/31/21</b>	<b>% Actual to Budget</b>

Net Position as of December 31		\$ 65,679,862		\$ 63,100,628	

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

For the six months ended December 31, 2022, total operating revenues were 72.82% of budget. This favorable variance is largely due to the timing of the collection of the system benefit charge of \$11.5 million in July 2022. Recycling, solar metering and tipping fee revenues are above the 50% budget benchmark showing at 109.36%, 72.47% and 52.12% respectively. At the time the FY23 budget was prepared, commodity prices were very low, but currently prices are higher than anticipated which tracks favorably for the County. Composting and mulch revenues are at 26.99% of budget largely due to timing as sales increase greatly during the spring season in the fourth quarter. As in prior years, tipping fee revenue was budgeted conservatively resulting in revenues slightly above budget.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses were 46.49% of budget as of December 31, 2022. This favorable variance is largely due to lower than anticipated recycling expense as well as salary savings in several positions. Closure costs are just above budget at this time due to landfilling being done in the first quarter. Trash is 100% transferred in the remaining quarters, resulting in no further closure expense.

Nonoperating revenues (expenses) are comprised of investment earnings offset by interest expense paid on debt service and are well above their budget benchmark at December 31, 2022, due to favorable interest rates on investments. An unanticipated gain on the sale of fixed assets is also included in total non-operating revenues.

Net Position as of December 31		\$ 9,783,382		\$ 7,194,836	

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of December 31, 2022 were \$15.1 million, representing 52.86% of the budget. This favorable variance is attributed to higher than anticipated occupancy as well as payor mix ratios. These revenues include \$79,598 from the Frederick County Community Foundation for education assistance, dental and replacement of the Montevue Assisted Living outdoor fountain.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses as of December 31, 2022 were \$14.6 million, representing 53.46% of the budget. Depreciation expense is higher than anticipated due purchase of assets unknown when preparing the FY23 budget. Operating expenses are slightly above the budget benchmark which is largely attributed to increase costs of supplies. Operating expenses also rise in direct correlation to increased revenues as many costs are patient driven.

Net Position as of December 31		<u>\$ 34,255,366</u>		<u>\$ 28,543,143</u>	

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of December 31, 2022 are 51.64% of budget. This favorable variance is due to higher than anticipated fleet vehicle replacement and usage revenues and is a result of an increase and timing in the number of vehicles being placed in service.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses as of December 31, 2022 are 47.21% of budget. This favorable variance is primarily due to personnel vacancies as well as lower than anticipated operating, supplies and repairs and maintenance expenses. Due to a shortage of technicians, more vehicles are being sent out to vendors for repairs and maintenance.

Nonoperating revenues consist primarily of investment income, gain or loss on sale of assets and insurance recoveries and are above their December 31, 2022 benchmark. This favorable variance is primarily due higher than anticipated interest rates.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

For the six months ended December 31, 2022, operating revenues are 42.04% of budget. This unfavorable variance is due to lower than anticipated budgeted service requests. This is primarily due to the use of a contractor for most cabling projects.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses are 44.84% of budget. This favorable variance is due to personnel vacancies as well as lower than anticipated operating and supplies expenses. This is primarily due to an open cable technician position that has not been filled to date.

Nonoperating revenues consist of investment income and is at 310% of budget. This favorable variance is due to higher than anticipated interest rates.

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

For the six months ended December 31, 2022, recordation tax collections are at 54.67% of the annual budget amount. With a balance of \$3.5 million, collections thus far in FY23 are \$1 million less than the same period in FY22. This decrease is due to a slowing housing market with higher mortgage interest rates combined with an annual budgetary increase.

Investment earnings are at 216% of budget and are \$264,906 more than this time last year. This increase is attributable to increasing interest rates and an increase in cash balances.

**Highlights relating to other financing sources (uses) variances from budget are as follows:**

Debt service payments are at 66.47% of budget for the six months ended December 31, 2022, due to the timing of those payments. Debt service expenditures are expected to be at 100% of budget by June 30, 2023.

The FY23 budget includes a \$10.6 million transfer to capital projects. As of December 31, 2022, \$5.3 million or 50% has been transferred.

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

For the six months ended December 31, 2022, impact fee revenues are at 39.57% of the annual budget amount. With a balance of \$12.1 million, impact fee revenues thus far are \$6.24 million less than the same period in FY22. The impact fee collections for single family and townhouse/duplex decreased by 40% and 46% respectively, while impact fee collections for "other" increased 15.2%. FY23 impact fee rates charged for new construction increased for all housing type categories; however, due to a slowing housing market because of rising mortgage rates and inflationary pressure, overall impact fees collections are down as compared to last fiscal year.

With a balance of \$635,000, school construction fee revenues thus far are \$762,000 less than the same period in FY22 and are below the 50% budget benchmark at 15.87%. This is due to decreases in subdivision plat recordings and building permit applications for single units and multi-family units, respectively.

Investment earnings are above the 50% budget benchmark at 71.1% and are \$1.7 million more than this time last year. This increase is attributable to higher interest rates along with a \$29.8 million increase in cash balances.

**Highlights relating to other financing sources (uses) variances from budget are as follows:**

Debt service payments for the six months ended December 31, 2022 are at 84.77% of budget due to timing of debt service payments. Debt service expenditures will be at 100% of budget at the end of FY23.

The FY23 budget includes a \$6.2 million transfer to capital projects. As of December 31, 2022, \$3.1 million or 50% has been transferred.

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

For the six months ended December 31, 2022, recordation tax collections are at 54.67% of the annual budget amount. With a balance of \$4.7 million, collections thus far in FY23 are \$1.4 million less than the same period in FY22. This decrease is due to a slowing housing market with higher mortgage interest rates combined with an increase in annual budget.

**Highlights relating to other financing sources (uses) variances from budget are as follows:**

Debt service payments for the six months ended December 31, 2022, are at 34.73% of budget due to timing of debt service payments. Debt service payments will be at 100% of budget by June 30, 2023.

The FY23 budget includes a \$2.0 million transfer to capital projects. As of December 31, 2022, \$1 million or 50% has been transferred.
