Net change in fund balance	\$ -	\$ 54,760,528		\$ 38,451,904	

***Additional Information:***

Total revenues are \$648.2 million, which is 85.03% of budget as compared to this same time last year which was \$606.9 million or 89.27% of budget. This is a positive variance of about \$41.2 million. Property taxes are \$392.1 million which is 99.14% of budget and is \$21.6 million higher than last fiscal year. Property tax assessments continued to increase over the prior fiscal year.

As of March 31, 2023, the County has received seven of their ten income tax distributions totaling \$204.8 million (66.64% of budget) which is \$19.5 million higher than this time last fiscal year. Two of the four largest income tax payments will be received in the fourth quarter. In FY22, fourth quarter income tax distributions totaled \$129.2 million. The fourth quarter income tax distributions for FY23 are unknown at this time, but are anticipated to meet FY22 distributions.

Investment earnings at March 31, 2023 are about \$8.2 million which is 412.48% of budget and \$8.3 million higher than this time last fiscal year. Interest earnings continue to increase due to rising MLGIP interest rates along with healthy invested cash balances.

Recordation tax collections are \$20.7 million or 71.63% of budget and are \$8.3 million less than this time last fiscal year. This unfavorable variance is primarily attributed to a slowing housing market due to higher mortgage interest rates and overall inflationary pressures. Also contributing to this unfavorable variance is the new FY23 allocation of unrestricted proceeds from the recordation tax, from 48.29% to 47.86%.

***Highlights relating to expenditure variances from budget are as follows:***

Total expenditures are at 73.91% of budget for the nine months ended March 31, 2023, which is slightly higher than this time in FY22 which was at 73.63% of budget. Expenditures overall remain below the 75% third quarter benchmark. Expenditures are expected to be at or very close to 100% of budget by the end of the fiscal year.

***Highlights relating to other financing sources/uses are as follows:***

Other financing sources/(uses) total \$(64.9) million compared to \$(84.8) million at this point last fiscal year. The primary reason for this variance was a \$26.6 million transfer to the capital projects fund in FY22 for the Himes Avenue/Prospect Center property acquisition and renovation. There was an increase in transfer to debt service fund (\$1.9 million) and the grants fund (\$1.9 million) in FY23.

CREP funds totaling \$2 million have been recorded year-to-date and were used to acquire four permanent agricultural preservation easement. Additional settlements are expected in fourth quarter.

**Additional Information:**

**Highlights relating to revenue variances are as follows:**

For the nine months ended March 31, 2023, total revenues include \$1.3 million of investment earnings related to the unspent bond proceeds from the Series 2021A General Obligation Bonds. Unspent proceeds remain for this bond issue in the amount of \$31.6 million. No revenues were budgeted in FY23

**Highlights relating to expenditure variances are as follows:**

Total expenditures are at 88.68% of budget for the nine months ended March 31, 2023. Total expenditures increased \$17.6 million in FY23. This includes debt service payments due April 1st, that were paid on March 31st. This increase is largely due to the payoff of the Series 2012 Refunding Bonds by the Series 2022A Current Forward Refunding Bonds of \$13.7 million. As this was a current refunding, the payment was recorded as an expense and not an Other Financing Use. The bond proceeds were received in FY22 and held in escrow until the August 1, 2022 call date. At this time, \$1.9 million or 23.88% of budget has been spent on Installment Purchase Agreements which is due to the timing of debt service payments. Six of these agreements are receiving their final principal payments of \$6 million in the fourth quarter of FY23. The expenditures are on target to meet budget estimates.

**Highlights relating to other financing sources/uses are as follows:**

Other financing sources includes transfers of funds required to pay debt service. The remaining budgeted transfers from other funds should be sufficient to pay the fourth quarter's debt service. The bond proceeds in FY22 reflect the proceeds and payoff of refunded bonds related to the issuance of the Series 2021B Refunding Bonds.

**Highlights relating to fund balance:**

As of March 31, 2023, the negative change in fund balance of \$22.6 million is offset by the FY22 year-end fund balance of \$21.8 million. This prior year's fund balance is a result of the 2022A Current Forward Refunding Bond proceeds that were received in May of 2022 and held to pay debt service on the 2012 Refunding Bonds in FY23.

**Future Debt Issues:**

The County will be closing on the Series 2023A General Obligation Bonds on May 31, 2023. These bonds will be issued in the amount of \$101.6 million and are anticipated to finance \$112.2 million in capital projects. Our financial advisors are anticipating premium of \$11.66 to support the remaining project funding, as well as issue costs.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of March 31, 2023, were \$36.3 million, representing 75.7% of the budget. This unfavorable variance is due primarily to lower than anticipated water and sewer revenues as well as bulk water sales. Bulk water usually picks up during the final quarter of the fiscal year due to seasonal pool fills, etc. On a positive note, the sewer inspection fees are 273.6% of budget at \$357,670 and meter revenues are 83.8% of budget at \$377,226, well above the benchmark.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses as of March 31, 2023, were \$35.2 million, representing 65.2% of the budget. Most operating expenses, i.e., personnel, supplies, and repair/maintenance are all below the budgeted benchmark of 75%. Vacancies within the division have resulted in personnel being slightly below budget at 72.6%. Repair/maintenance is below budget at 40.7% this is due to lower than anticipated repairs. Depreciation expense is at budget.

Nonoperating revenues (expenses) are comprised of investment earnings that are offset by interest expense paid on debt service as well as project expenses not being capitalized. Due to favorable interest rates, investment income exceeds the budgeted benchmark at 1766.4%.

Capital contributions of \$9.4 million have been received year to date which contributes to the net position of \$708 million. This amount is down from prior years due to the economy impacting new construction within the county.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

This favorable variance is largely due to the timing of the collection of the system benefit charge of \$11.6 million. Recycling revenues are well above the budget benchmark due to fluctuating commodity prices. Included in operating income is revenue of \$156,136 for the sale of renewable energy certificates.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses were 67.9% of budget as of March 31, 2023. Personnel expenses are below the benchmark primarily due to salary savings from vacancies. Recycling cost are lower than previous years which attributes to lower than anticipated costs. Transfer expense is below the benchmark due to lower than anticipated tonnage at this point in the fiscal year. Currently the average monthly tonnage is approximately 2,000.

Nonoperating revenues (expenses) are primarily comprised of investment earnings offset by interest expense paid on debt service as well as gain on sale of capital assets.

***Additional Information:***

***Highlights relating to operating revenue variances from budget are as follows:***

Operating revenues as of March 31, 2023, were \$22.8 million, representing 79.5% of the budget. The favorable variance is related to a faster recovery from the COVID19 pandemic as well as payor mix ratios. These revenues include \$59,250 in funding from a state COVID19 grant for Assisted Living Facilities as well as \$102,571 from the Frederick County Community Foundation for various programs.

***Highlights relating to operating expense variances from budget are as follows:***

Operating expenses as of March 31, 2023, were \$21.9 million, representing 79.8% of the budget. Depreciation expense is higher than anticipated due to assets that were identified after the budget had been adopted. Operating expenses are slightly above the budget benchmark as many of these costs are patient driven, which is directly correlated to the increase in revenues.

Nonoperating revenues (expenses) are mostly comprised of interest earned as well as gain on disposal of capital assets. There is also a transfer from the grants fund to cover hazard pay and other personal protective equipment related expenses.

Due to a shortage of technicians, more vehicles are being sent out to vendors for repairs and maintenance.

Nonoperating revenues consist primarily of investment income, gain or loss on sale of assets, and insurance recoveries and are above their March 31, 2023 benchmark. This favorable variance is primarily due to higher than anticipated interest rates.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of March 31, 2023, are 72.5% of budget. This unfavorable variance is largely due to county-wide vacancies as workers compensation fees are directly attributed to wages paid.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses as of March 31, 2023, are 61.83% of budget. This favorable variance is primarily due to a change in our policy model for FY23. Beginning July 1, 2022, the County changed from a hybrid style policy to a fully self-insured model resulting in lower premium. Prefunded claims expense is below budget at 65.1% due to lower than anticipated workers compensation claims. This is a direct result of staff as well as our third party administrator working diligently to get employees back to work quicker than in prior years. The third quarter reports for FY22 were not presented in the quarterly package; therefore, certain expenses and investment income was not recorded at that time.

Nonoperating revenues consist primarily of investment income. This fund also receives a general fund transfer to cover the volunteer fire and rescue premiums.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses are 39.96% of the 50% budget benchmark. This variance is due to lower than anticipated health claims paid in the third quarter.

Nonoperating revenues consist of investment income.
