***Highlights relating to revenue variances from budget are as follows:***

Total revenues are \$660.8 million, which is 71.17% of budget as compared to this same time last year which was \$557.2 million or 66.12% of budget. This is an increase of \$103.7 million over the same period last year. Property taxes are \$475.5 million which is 99.4% of budget and is \$66.3 million higher than last fiscal year. Property tax assessments continued to increase over the prior fiscal year. As of December 31, 2024, income tax revenue is \$134.2 million or 34.52% of budget as compared to \$109.2 million or 31.14% of budget last year. This \$25 million increase is primarily due to higher than anticipated August, October and November distributions. November's distribution alone was \$17.1 million more than the prior year and is primarily related to strength from withholding and estimated payments from third quarter tax year 2024. Tax returns processed from August 31st to October 31st rose 3% compared to the same period last year. The Comptroller of Maryland Bureau of Revenue Estimates had expected job growth to slow and with it withholding revenue due to a low unemployment rate. However, withholding growth continues to show strength. The State cautions that declines are difficult to predict. Three of the four largest income tax distributions are made in the third and fourth quarter of each fiscal year.

Investment income as of December 31, 2024, is approximately \$10.6 million which is 264.23% of budget. In comparison, investment earnings were \$11.2 million at this same time last fiscal year. This favorable variance to budget is primarily due to sustained higher MLGIP interest rates and invested pooled cash.

Recordation tax is at \$19.6 million or 94.92% of budget which is well above 50% six month benchmark. As of the same period last fiscal year, recordation tax was at \$11 million. This \$8.6 million increase is primarily due to an owner of a parcel on the data center campus securing a significant line of credit in the first quarter of FY25. License and and permits revenues related to the building, electrical, plumbing, and grading permits are likewise above the prior fiscal year primarily because of data center construction.

***Highlights relating to expenditure variances from budget are as follows:***

Total expenditures are at 49.57% of budget or \$431.2 million for the six months ended December 31, 2024. This is slightly below the 50% second quarter budget benchmark. In comparison, FY24 expenditures through second quarter were 50.08% of budget or \$414.2 million. Overall, expenditures are expected to be at budget by fiscal year end.

***Highlights relating to other financing sources/uses are as follows:***

Other financing sources (uses) are at approximately \$(57.7) million compared to \$(42.6) million at this point last year. Of note, the transfer to capital projects fund and debt service fund increased by \$14.4 million and \$1.3 million respectively. Additional increases in transfer to housing initiative fund, risk management insurance fund, and health insurance fund were more than offset by a one-time waiver by CIGNA of the deficit liability of \$1.37 million attributed to the County's health insurance plan prior to the current self-funded plan.

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

Recordation tax is over budget at 94.92% as of December 31, 2024. The positive variance is due to recordation taxes running high as a result of an owner of a parcel on the data center campus securing a significant line of credit in the first quarter of FY25. Year-to-date agricultural transfer tax collections total \$1.1 million, but only \$933,062 is currently being recognized as revenue, which is twice the appropriated budget in the first half of FY25. Transfer tax collections are deferred and recorded as revenue as expenditures are incurred. The Maryland Agricultural Land Preservation Foundation (MALPF) has two easements that are anticipated to settle in the second half of FY25. The program has additional expected settlements that would recognize the remaining deferred transfer tax on hand. Revenue for this program is budgeted as agricultural transfer tax revenue and appropriated fund balance.

Department of Natural Resources includes the Rural Legacy and Conservation Reserve Enhancement Programs (CREP) are budgeted at \$3 million. The FY25 Rural Legacy grant award of \$1.3 million was receive in second quarter and was approved by County Council in the second half of FY25. The budget also includes remaining balances from the FY22, FY23 and FY24.

Critical farms refunds are at 14.57% of the budget as of December 31, 2024, and include one refund. Two additional refunds are expected in FY25, totaling \$1.3 million.

Investment earnings are \$1.3 million and include earnings from both pooled invested cash balances and investments held to finance future installment Purchase Agreement (IPA) debt service principal payments.

**Highlights relating to expenditure variances from budget are as follows:**

Total expenditures are at 27.65% of budget for the six months ended December 31, 2024. Land expense is at 25.97% of budget and includes one Critical Farm settlement, three lump sum payments under the Rural Legacy program, and five lump sum payments under the Conservation Reserve Easement Program. Additional settlements are planned to occur during the second half of the fiscal year.

Operating expenditures are at 82.93% of budget for the first half of FY25. The majority of the operating expenses contains activity from both the Agricultural Innovation Grant and Rural Historical Preservation Grant Programs. Year to date payments for the two grant programs total \$441,285 as of December 31, 2024. Applications have been submitted for the FY25 Rural Historic Preservation Grant program and awards for the fall cycle of the Ag Innovation Grant program have not been announced yet.

**Highlights relating to other financing sources variances from budget are as follows:**

Transfers out to the Debt Service Fund are currently at 27.59% of budget as of December 31, 2024. This fluctuates each year with the timing of the annual interest payments, principal payments and settlements of the Installment Purchase Program. Scheduled transfers out to the Debt Service Fund for May 2025 total \$3.9 million for installment purchase agreements principal and interest payments.

During the first six months ending December 31, 2024, of the \$3.8 million installment purchase agreement debt, the County made two issuances. Additional settlements are anticipated in the second half of the fiscal year. In recent application rounds, we have allowed landowners to choose between a lump sum payment or the 10-20 year zero coupon bond.

***Additional Information:***

***Highlights relating to revenue variances are as follows:***

For the six months ended December 31, 2024, total revenues are above the benchmark at \$1.6 million or 77.06% of budget. Recordation tax is currently at \$877,012 or 94.92% of the budget. This variance is primarily attributed to an owner of a parcel on the data center campus securing a significant line of credit in the first quarter of FY25.

Investment earnings at December 31, 2024, are \$368,870 which is 335.34% of budget. Interest earnings continue to be high due to favorable MLGIP interest rates along with healthy invested cash balances.

Miscellaneous revenue is made up of the Moderately Priced Dwelling Units (MPDU) - payment In lieu revenue. This revenue is unpredictable and therefore is not used until received. Typically, the revenue is used the following fiscal year after revenue falls to fund balance.

***Highlights relating to expenditure variances are as follows:***

Expenditures as of December 31st are at 51.40% of the budget. The miscellaneous operating expense is a placeholder for the MPDU payment in lieu option revenue, as the County does not want to over commit or expend revenue that has not yet been received.

***Highlights relating to other financing sources/uses are as follows:***

Transfers from General Fund are currently at 50% of budget at December 31, 2024. Remaining budget is anticipated to be recognized in the second half of FY25.

***Highlights relating to fund balance:***

The fund balance as of December 31st, includes \$19.5 million of long-term account receivables. Most of the long-term account receivables will be paid back at the time of sale or refinance. All loan repayments are used as revolving funds to address affordable housing needs.

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

For the six months ended December 31, 2024, total revenues represent interest income on unspent bond proceeds. The 2023A Bonds earned \$750,464 with a remaining invested balance of \$16,815,706. It's anticipated these funds will be depleted by May 2025. Revenues are below the 50% budget benchmark. Revenues will be greater in the second half of the year due to the issuance of the 2025A Series Bonds with \$125 million of funds invested as of February 13, 2025 to offset expenses in the Debt Service Fund.

**Highlights relating to expenditure variances from budget are as follows:**

Total expenditures are at 62.57% of budget for the six months ended December 31, 2024. This is a result of timing of debt service payments with the majority occurring in the first half of the year.

Debt service for Installment Purchase Agreement payments are at 25.59% of budget. Installment Purchase Agreement payments of \$3.96 million will be paid in May of 2025, Of that amount, \$3.81 million will be for maturing issues. Remaining debt service for bonds is \$19.02 million and \$311,921 for leases. Lease payments are made quarterly. The January first quarterly payment was made in December, so only one payment remains for the remainder of the fiscal year.

Bond issue expenses of \$2,158 have been incurred for the 2025A Series Bonds. The County estimates \$810,000 of total bond issue costs. A budget increase will be requested to reflect the additional cost and bond premium received to offset these additional costs in February 2025.

**Highlights relating to other financing sources/uses are as follows:**

Other financing sources include the transfers from other funds. Transfers from the General Fund are based on the budgeted amount. Other special revenue fund transfers are based on actual expenditures. It is anticipated that at year-end the budgeted transfer amounts may require a small increase for the Impact Fee Fund in an amount no greater than \$3,100 to cover expenses through year end.

**Change in Fund Balance:**

The \$10.3 million decrease in fund balance as of December 31, 2024, is a result of the timing of debt service payments. With the increase in investment earnings and proceeds from the Series 2025A Bonds and reduction in debt service payments in the 2nd half of FY25, the fund balance should reflect an increase by year-end.

**Current Debt Issuance:**

On July 23, 2024, the County issued an Installment Purchase Agreement in the amount of \$235,834, with a 10 year term. A second Installment Purchase Agreement was issued on September 4, 2024, for \$328,524, with a 20 year term.

**Future Debt Issuance:**

On February 13, 2025, the County closed on the Series 2025A General Obligation Bonds for \$202,655,000. This is the largest bond financing the County has issued to date. The Debt Service Fund will be responsible for the debt service on \$181,325,000 over a 20 year term. The Water/Sewer Fund will be responsible for the debt service on \$21,330,000 over a 30 year term. This bond sale provided for \$11,541,170 of bond premium to assist in the offset of project funding (\$10,465,000), as well as the cost of issuance and debt service. The bonds were sold at a true interest cost of 3.627%

***Additional Information:***

***Highlights relating to operating revenue variances from budget are as follows:***

Operating revenues as of December 31, 2024 were \$27 million, representing 49.07% of the budget. Water/sewer charges are just below the benchmark at 47.6%. This unfavorable variance is largely due to lower than anticipated billings with the City of Frederick. Other sources of revenue such as state grant revenue, septage processing revenues, and inspection fees combine for a positive variance of 87.5% which help off-set the negative variance from the water/sewer charges. Grant revenues are at 94.98% and septage processing fees are at 57.55%. Inspection fees are well above the benchmark at 2069.35% and are tied directly to construction within the county which is often difficult to project 12-18 months ahead.

***Highlights relating to operating expense variances from budget are as follows:***

Operating expenses as of December 31, 2024 were \$25.1 million, representing 42.84% of the budget. Personnel is slightly below budget due to staff vacancies. Repair and maintenance costs are well below budget due lower than anticipated repair needs. At this time, no major repairs have been necessary. Operating expenses are below the benchmark largely due to operational overhead from the various plants coming in lower than anticipated as well as several contracted services scheduled for the Spring due to outside work being performed.

Nonoperating revenues (expenses) are mostly comprised of investment earnings offset by interest expense paid on debt service. Year-to-date interest rates are very strong and therefore contribute to much higher than anticipated revenues. Miscellaneous nonoperating revenues include expenses related to non-capitalizable activities which are primarily funded by reserves or outside contributions.

***Additional Information:***

***Highlights relating to operating revenue variances from budget are as follows:***

For the six months ended December 31, 2024, total operating revenues were 71.84% of budget. This favorable variance is largely due to the timing of the collection of the system benefit charge of \$11.9 million in July 2024. Recycling and tipping fee revenues also contribute to the favorable variance as they both above the 50% budget benchmark showing at 76.91% and 52.58% respectively. Mulch and composting revenues are at 33.01% of budget largely due to timing as sales increase greatly during the spring season in the fourth quarter.

***Highlights relating to operating expense variances from budget are as follows:***

Operating expenses were 45.24% of budget as of December 31, 2024. This favorable variance is largely due to lower than anticipated recycling expense as well as salary savings in several positions including the deputy director. Closure costs are above budget at this time due to landfilling being done in the first and second quarters. Trash is 100% transferred in the remaining quarters, resulting in no further anticipated closure expense.

Nonoperating revenues (expenses) are comprised of investment earnings offset by interest expense paid on debt service and are well above their budget benchmark at December 31, 2024, due to favorable interest rates on investments. An unanticipated gain on the sale of fixed assets is also included in total non-operating revenues.

***Additional Information:***

***Highlights relating to operating revenue variances from budget are as follows:***

Operating revenues as of December 31, 2024 were \$13.4 million, representing 48.6% of the budget. Resident related revenues fluctuate largely due to payor mix as well as occupancy. The average occupancy rate for the first half of FY25 is 94%.

***Highlights relating to operating expense variances from budget are as follows:***

Operating expenses as of December 31, 2024 were \$13.3 million, representing 51.07% of the budget. Depreciation expense is much higher than anticipated due the signing of a new copier lease which was unknown when preparing the FY25 budget.

Non-operating revenues consist primarily of investment earnings.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of December 31, 2024 are 46.40% of budget. This unfavorable variance is due to lower than anticipated fleet fuel, labor and parts revenues. This is a result of lower than projected fuel prices and timing of vehicles being sent out for repairs which have not been completed at this time.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses as of December 31, 2024 are 46.05% of budget. This favorable variance is primarily due to personnel vacancies as well as lower than anticipated supplies expenses. Due to a shortage of technicians, currently having four vacancies, more vehicles are being sent out to vendors for repairs and maintenance. There is a back log with our outside vendors which means that vehicles are sitting waiting for repair which is lowering the second quarter costs.

Nonoperating revenues consist primarily of investment income, gain or loss on sale of assets and insurance recoveries and are above their December 31, 2024 benchmark. This favorable variance is primarily due higher than anticipated interest rates.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of December 31, 2024, are 46.7% of budget. This unfavorable variance is due to lower than anticipated liability premiums collected based on premium expense. Workers compensation premiums are at the benchmark. For FY25, the County decided to become mostly self-insured with all policies and rolled them all into this fund. This includes workers compensation, auto liability as well as general liability.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses as of December 31, 2024, are 45.84% of budget. This favorable variance is primarily due to lower than anticipated workers compensation premiums including fire and rescue as well as very low property deductible expenses. As stated above, for FY25 the County decided to become mostly self-insured with all policies and rolled them all into this fund. This includes workers compensation, auto liability as well as general liability.

Nonoperating revenues consist primarily of investment income. This fund also receives a general fund transfer to cover the volunteer fire and rescue premiums.

***Highlights relating to revenue variances from budget are as follows:***

For the six months ended December 31, 2024, recordation tax collections are at 94.92% of the annual budget amount. With a balance of \$4.39 million, collections thus far in FY25 are \$1.92 million more than the same period in FY24. The recordation tax revenue already exceeds total annual budget due to a one time large influx of tax paid in August of 2024 for the Quantum Loophole project.

Investment earnings are at 528% of budget and are \$25,683 more than this time last year. This increase is attributable to steady higher interest rates and an increase in cash balances.

***Highlights relating to other financing sources (uses) variances from budget are as follows:***

Debt service payments are at 68.44% of budget for the six months ended December 31, 2024, due to the timing of those payments. Debt service expenditures are expected to be at 100% of budget by June 30, 2025.

The FY25 budget includes a \$730K transfer to capital projects. As of December 31, 2024, \$365K or 50% has been transferred.

**Additional Information:**

**Highlights relating to revenue variances from budget are as follows:**

For the six months ended December 31, 2024, impact fee revenues are at 46.36% of the annual budget amount. With a balance of \$8.42 million, impact fee revenues thus far are \$132,490 less than the same period in FY24. The impact fee collections for single family and townhouse/duplex increased by 9.93% and 0.22% respectively, while impact fee collections for "other" decreased 69.83%. FY25 impact fee rates charged for new construction increased for all housing type categories; however, due to a slowing housing market because of sustained higher mortgage rates and inflationary pressure, overall impact fees collections are slightly down as compared to last fiscal year.

The County did not collect any school mitigation fees in the first or second quarter of FY25. Many developers with Development Rights and Responsibility Agreements or Letters of Understanding with the County had already recorded their plots prior to FY25. There are approximately six developments in varying phases of planning approval and recordation. Overall, school mitigation revenue continues to remain low due to sustained interest rate and inflationary pressure within the housing market.

Investment earnings are above the 50% budget benchmark at 163.42% and are \$178,894 more than this time last year. This increase is attributable to sustained higher interest rates along with an increase of \$10.12 million in cash balances.

**Highlights relating to other financing sources (uses) variances from budget are as follows:**

Debt service payments for the six months ended December 31, 2024 are at 85.39% of budget due to timing of debt service payments. Debt service expenditures will be at 100% of budget at the end of FY25.

The FY25 budget includes a \$8.3 million transfer to capital projects. As of December 31, 2024, \$4.1million or 50% has been transferred.
