***Additional Information:***

Total revenues are \$803.5 million, which is 86.53% of budget as compared to this same time last year which was \$685.9 million or 81.39% of budget. This is an increase of about \$117.6 million. Property taxes are \$481 million which is 100.56% of budget and is \$61.1 million higher than last fiscal year. Starting in FY25, property tax rates were increased by five cents per \$100 of assessed value and dedicated solely to school construction projects. In addition, property tax assessments continued to increase over the prior fiscal year.

As of March 31, 2025, the County has received seven of their ten income tax distributions totaling \$238.3 million (61.3% of budget), which is \$30.8 million higher than this time last fiscal year. Two of the four largest income tax payments will be received in the fourth quarter. In FY24, fourth quarter income tax distributions totaled \$146.4 million. The fourth quarter income tax distributions for FY25 are unknown at this time, but are anticipated to meet FY24 distributions.

Investment earnings at March 31, 2025, are about \$15.6 million which is 390.3% of budget but \$1 million less than this time last fiscal year. Interest earnings, while still healthy, are slightly below last fiscal year due to lower MLGIP interest rates in recent months. Invested cash balances remain strong. The favorable variance to budget is attributed to conservative budgeting strategy.

Recordation tax collections are \$33.8 million or 163.57% of budget and are \$17.7 million higher than this time last fiscal year. This favorable variance is primarily attributed to a large data center campus project. Otherwise, recordation taxes remain relatively flat.

***Highlights relating to expenditure variances from budget are as follows:***

Total expenditures are at \$635.3 million or 73.02% of budget for the nine months ended March 31, 2025, which is \$29.7 million more than last fiscal year but a slightly lower percentage of budget. Expenditures overall remain below the 75% third quarter benchmark. Expenditures are expected to be slightly below budget by fiscal year end.

***Highlights relating to other financing sources/uses are as follows:***

Other financing sources/(uses) total \$(87.5) million compared to \$(64.4) million at this point last fiscal year, an increase of \$23.1 million. This is primarily attributed to an increase in transfer to the capital projects fund (\$22 million) due mainly to the five cent property tax increase dedicated to rehabilitation and replacement of older schools. There was also an increase in transfer to debt service fund and housing initiatives fund (\$2 million and \$1.125 million respectively). This was partially offset by transfers in from grants and nursing facilities funds, as well as one-time receipt of insurance proceeds.

**Highlights relating to revenue variances from budget are as follows:**

Recordation tax is over budget at 144.86% as of March 31, 2025. This favorable variance is primarily attributed to a large data center campus project. Year-to-date agricultural transfer tax collections total \$1.09 million and \$933,062 has been recognized as of March 31, 2025. Transfer tax collections are deferred and recorded as revenue as expenditures are incurred. The Maryland Agricultural Land Preservation Foundation (MALPF) has two easements that are anticipated to settle in the last quarter of FY25. The program has additional expected settlements that would recognize the remaining deferred transfer tax on hand. Revenue for this program is budgeted as agricultural transfer tax revenue and appropriated fund balance.

Department of Natural Resources is at 76.51% of budget. This includes the Rural Legacy and Conservation Reserve Enhancement Programs (CREP) budgeted at \$4.9 million. The FY25 Rural Legacy grant award of \$1.3 million was received in 2nd quarter and was approved by County Council in the second half of FY25.

Critical Farms Refunds are at 43.72% of the budget as of March 31, 2025 and includes two refunds. One additional refund is expected in FY25, totaling \$819,047.

***Highlights relating to revenue variances are as follows:***

For the nine months ended March 31, 2025, total revenues are above the benchmark at \$2.5 million or 123.64% of budget. Recordation tax is currently at \$1.5 million or 163.57% of the budget. This variance is primarily attributed to an owner of a parcel on the data center campus securing a significant line of credit in the first quarter of FY25.

Investment earnings at March 31, 2025, are \$540,102 which is 491% of budget. Interest earnings continue to increase due to healthy invested cash balances.

Miscellaneous revenue is made up of the Moderately Priced Dwelling Units (MPDU) - payment in lieu revenue. This revenue is unpredictable and therefore is not used until received. Typically, the revenue is used the following fiscal year after revenue falls to fund balance.

***Highlights relating to expenditure variances are as follows:***

Expenditures as of March 31, 2025 are at 52.80% of the budget. The miscellaneous operating expense is currently at 3.89% of budget as of March 31, 2025. The miscellaneous operating expense budget includes the \$1.5 million Transfer from General Fund in the approved FY25 budget and is also used as a placeholder for the MPDU payment in lieu option revenue offset. Miscellaneous operating expense budgeted to offset the MPDU payment in lieu option revenue, is not used until received, as the County does not want to over commit or expend revenue that has not yet been received.

***Highlights relating to other financing sources/uses are as follows:***

Transfer from General Fund is currently at 75% of budget at March 31, 2025. Remaining budget is anticipated to be recognized in the fourth quarter of FY25.

**Additional Information:**

**Highlights relating to revenue variances are as follows:**

For the nine months ended March 31, 2025, total revenues include \$1.6 million of investment earnings related to the unspent bond proceeds from the Series 2023A and Series 2025A general obligation bonds. Unspent proceeds remain for the Series 2023A bonds in the amount of \$17.1 million. Unspent proceeds for the Series 2025A bonds that were issued on February 13, 2025, are \$134.1 million. Estimated fourth quarter earnings should bring these revenues in line with budget.

**Highlights relating to expenditure variances are as follows:**

Total expenditures are at 78.31% of budget for the nine months ended March 31, 2025. Total expenditures increased \$2.7 million in FY25. This is largely attributed to programmed fluctuations in bond debt service reflecting a increase of \$2.1 million. Remaining bond debt service for the fourth quarter will remain within budget.

Lease financing payments are made quarterly. As of March 31, 2025, \$1.5 million or 25.59% of budget has been spent on installment purchase agreements which is due to the timing of debt service payments. Nine of these agreements are scheduled to receive their final principal payments of \$3.8 million in the fourth quarter of FY25. The expenditures are on target to meet budget estimates.

**Highlights relating to other financing sources/uses are as follows:**

Other financing sources includes transfers of funds required to pay debt service and bond premium related to the issuance of the Series 2025A bonds that closed in February 2025. The remaining budgeted transfers from other funds should be sufficient to pay the fourth quarter's debt service.

**Highlights relating to fund balance:**

As of March 31, 2025, there is a negative change in fund balance of \$3.5 million. The change in fund balance is forecasted to be positive by year end.

**Future Debt Issues:**

The County is scheduled to close on an Agricultural Preservation Installment Purchase Agreements in May 2025 for \$355,046. This will add 108.6 acres under easement for the County. The next bond issue will be in the summer or fall of 2026.

**Highlights relating to operating revenue variances from budget are as follows:**

Operating revenues as of March 31, 2025, were \$41.8 million, representing 75.97% of the budget. This favorable variance is due primarily to higher than anticipated inspection fees and the timing of state grant funds. In addition inspection fees there are other operating revenues that are included in other sources, septage processing revenues at \$403,995 or 78.23% of budget and delinquent fees at \$82,276 or 86.61% of budget which are contributing to this positive variance.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses as of March 31, 2025, were \$40 million, representing 68% of the budget. Most operating expenses (personnel and supplies) are all below the budgeted benchmark of 75%. Vacancies within the division have resulted in personnel being slightly below budget at 69%. Repair/maintenance is coming in at 62% and is on track to finish the fiscal year below budget. Other operating expenses and supplies are also below the benchmark partially due to timing of purchases as well as conservative budgeting.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

This favorable variance is largely due to the timing of the collection of the system benefit charge of \$12 million. Recycling revenues are above the budget benchmark due to conservative budgeting as well as fluctuating commodity prices. Included in operating income is revenue of \$131,022 for the sale of renewable energy certificates.

**Highlights relating to operating expense variances from budget are as follows:**

Operating expenses were 68% of budget as of March 31, 2025. Personnel expenses are below the benchmark primarily due to salary savings from vacancies. Recycling costs are below the budget benchmark due to lower than anticipated tonnage collected. Transfer expense is below the benchmark due to lower than anticipated tonnage at this point in the fiscal year. Closure costs are above the benchmark due to most landfilling being completed in the first half of the fiscal year.

Operating revenues as of March 31, 2025, are 70% of budget. This unfavorable variance is due to lower than anticipated liability premiums collected based on premium expense. Workers compensation premiums are just below the benchmark due to vacancies and timing of pay periods. For FY25, the County decided to become mostly self-insured with all policies and rolled them all into this fund. This includes workers compensation, auto liability as well as general liability.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses as of March 31, 2025, are 72.2% of budget. This favorable variance is primarily due to lower than anticipated property deductible expenses and administrative fees. As stated above, for FY25 the County decided to become mostly self-insured with all policies and rolled them all into this fund. This includes workers compensation, auto liability as well as general liability.

Nonoperating revenues consist primarily of investment income and insurance recoveries. This fund also receives a general fund transfer to cover the volunteer fire and rescue premiums.

**Additional Information:**

**Highlights relating to operating revenue variances from budget are as follows:**

For the nine months ended March 31, 2025, operating revenues are 78.5%. This favorable variance is due in part to the timing of pay periods year-to-date as well as higher than anticipated employee enrollment in the plan.

**Highlights relating to operating expense variances from budget are as follows:**

Total operating expenses are 80.1%. This unfavorable variance is due to higher than anticipated claims which is due in part to higher employee enrollment. The operating expense budget includes a \$625,000 allocation for the employee health clinic which is anticipated to open in FY26. This unused budget has helped to off-set the losses in claims.

Nonoperating revenues consist of investment income.

For the nine months ended March 31, 2025, recordation tax collections are at 163.57% of the annual budgeted amount. With a balance of \$7.6 million, collections thus far in FY25 are \$3.96 million more than the same period in FY24. The recordation tax revenue already exceeds total annual budget due to a large influx of tax paid in August 2024 and February 2025 related to the Quantum Loophole project.

Investment earnings are at 781.48% of budget and are \$20,727 more than this time last year. This increase is attributable to slightly lower interest rates combined with higher average cash balances.

***Highlights relating to other financing sources (uses) variances from budget are as follows:***

Debt service payments are at 81.87% of budget for the nine months ended March 31, 2025, due to the timing of debt service payments. Debt service expenditures are expected to be at 100% of budget by June 30, 2025.

The FY25 budget includes a \$729,747 transfer to capital projects. As of March 31, 2025, \$547,000 or 75% has been transferred.

For the nine months ended March 31, 2025, impact fee revenues are at 73.1% of the annual budget amount. With a balance of \$13.3 million, impact fee revenues thus far are \$1.6 million less than the same period in FY24. The impact fee collections for single family and "other" decreased by 0.46% and 92.8% respectively. The impact fee collections for townhouse/duplex increased slightly by 2.2%. FY25 impact fee rates charged for new construction increased for all housing type categories; however, due to a slowing housing market because of sustained higher mortgage rates and inflationary pressure, overall impact fees collections are down as compared to last fiscal year.

With a balance of \$240,744, school mitigation fee revenues thus far are \$632,996 less than the same period in FY24 and are below the 75% budget benchmark at 12%. This is due to decreases in subdivision plat recordings associated with the remaining school mitigation agreements.

Investment earnings are above the 75% budget benchmark at 235.9% and are \$77,641 less than this time last year. This decrease is attributable to slight lower interest rates along with consistent average cash balances.

**Highlights relating to other financing sources (uses) variances from budget are as follows:**

Transfers to the Debt Service Fund for payment of debt service on impact fee bonds for the nine months ended March 31, 2025, are at 90.9% of budget due to the timing of debt service payments.
