

FREDERICK COUNTY HUMAN TRAFFICKING RESPONSE TEAM

Protocol and Resource Guide
2021

This guide was originally created by the Frederick County Human Trafficking Task Force in 2017 to assist agencies and service providers in collaboratively supporting survivors of trafficking. The resource guide lists agencies and organizations that are equipped to provide services specific to trafficking survivors, as well as local resources for victim referral within Frederick County. Please be advised that the resource guide is not exhaustive and some agencies may have provider requirements where not all survivors may be accepted for services.

The assessment tool is a basic guide to assist agencies with the identification of and response to potential trafficking victims. The protocol helps inform our county's response to identified human trafficking victims. The task force suggested that the assessment tool and protocol be incorporated into agencies current protocols. This guide is currently updated and reviewed by the Frederick County Human Trafficking Response Team, the anti-trafficking collaborative created as a result of the task force's recommendations to the Frederick County Council.

Understanding Human Trafficking

Human trafficking is a form of modern-day slavery in which traffickers use force, fraud, or coercion to control victims for the purpose of engaging in commercial sex acts or labor services against his/her will.

According to the federal Trafficking Victims Protection Act (TVPA) of 2000:

Sex trafficking is the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purposes of a commercial sex act, in which the commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such an act has not attained 18 years of age (22 USC § 7102).

Labor trafficking is the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purposes of subjection to involuntary servitude, peonage, debt bondage, or slavery, (22 USC § 7102). (Polaris)

Traffickers use tactics of power and control to exploit victims' vulnerabilities, as illustrated here:
