Public Announcement:

Zach Fleagle

New Business:

Peter Blood

Discussion concerning Landfill capacities, transportation/transfer contracts and fail-safe options

- Per Phil Harris, Chambersburg is the current receiving facility. If the location is no longer viable and had to utilize Frederick County landfill-the approximate timeline for end of use would be 6 years.

- The transfer contracts are in place.

- Fail-safes contingencies include: Facility must prove tonnage capacity and must have alternate facilities in place if needed.

Phil Harris

- Tipping Fees have remained unchanged though overall costs have increased

Public Comment:

None

Set next meeting date: Virtual

September 1, 2021 at 1830 hours
