## FOR IMMEDIATE RELEASE

### Hazmat Incident in Brunswick

*FCDFRS is working with MDE and CSX regarding a Hazmat situation within Brunswick*

**FREDERICK, MD (September 18, 2022)** – At 4:33pm the Frederick County Division of Fire and Rescue Services (FCDFRS) was dispatched to the east end of the Brunswick Railyard for a reported Hazmat incident. Once on scene FCDFRS crews located a rail car with a small vapor release. Access to the C&O towpath in the immediate area has been limited as the Maryland Department of Environment, CSX, and FCDFRS are actively monitoring the situation. We want to assure the public that there is no danger.

We will release more information as soon as there are any updates.
