

# GREEN PARTNERS PROGRAM

## HAVE BIG, GREEN IDEAS?

Looking to volunteer?  
Want to help people live  
more sustainably? Let's  
work together to create a  
brighter future for everyone  
in our community!

## JOIN US IN BUILDING A SUSTAINABLE COMMUNITY!

### We're here to help!

Frederick County Government is working to create an inclusive, healthy community where the environment is protected and all individuals can live, learn, and thrive. But this can only be achieved if we have partnerships with community-based organizations, collaboration with other agencies, input from stakeholders, and the involvement of engaged citizens. That means we need YOU!

### Interested in working with us?

Green Partners help us connect to diverse populations across Frederick County to bring sustainability resources, ideas, and programs to every neighborhood. And we provide our partners with the support and information they need to do great green things!

### Here are some ways you can get involved:

- leaf **The Green Leader Brigade** is made up of individuals who volunteer alongside our staff to work on a variety of projects such as planting trees, watershed monitoring, youth programs or community outreach, and neighborhood cleanups.
- leaf **Green Ambassadors** are organizations that partner with the Division of Energy and Environment to help connect people to programs, resources, and ideas that promote sustainability. These groups refer individuals to our services and we provide educational programs or trainings, participate in events, and work together to help our community go green!
- leaf **The Frederick County Sustainability Commission** meets monthly to discuss policies and programs that will advance Frederick County's progress toward its sustainability and climate goals.
