Frederick County Boards & Commissions  
12 East Church Street  
Frederick, MD 21701

**SUBJECT:** Board of Education Vacancy

To whom it may concern:

Thank you for the opportunity to be considered for the open Board of Education position. My professional experience as a Social Studies teacher, over fifteen years of military service, and commitment to public education make me a strong candidate for this position.

As outlined in my résumé, I have more than five years of experience in secondary education, where I dedicated my career to serving students and supporting their academic and personal growth. I earned my education degree from Shippensburg University in 2015 and began teaching at Fauquier High School in Warrenton, Virginia, where I taught U.S. Government and World History and served as an assistant football coach. I later taught 8th Grade U.S. History at Monocacy Middle School and coached football at Catoctin High School. These roles allowed me to develop strong instructional, classroom management, and student engagement skills, even while navigating the unique challenges of the pandemic.

In addition to my educational background, I have served in the Maryland Army National Guard for over fifteen years and currently serve as an Infantry Officer. My military service has instilled in me a deep commitment to excellence, integrity, and community service. I have extensive experience in leadership, planning, and organizational management, including my current role as a Senior Platoon Trainer in the Maryland Officer Candidate School program. These responsibilities have strengthened my abilities in communication, mentorship, and team development — skills that directly support effective board governance.

My professional career in IT infrastructure sales has further expanded my experience in budgeting, strategic planning, and stakeholder communication. I am proficient in Microsoft Office, experienced in presenting complex information clearly, and familiar with cybersecurity considerations and family support needs.

I believe the combination of my educational experience, military leadership, and community involvement has prepared me to contribute meaningfully to the Board of Education. I would be honored to serve the students and families of Frederick County in this capacity.

Sincerely,

CPT Walker, Tyler, P
