

LETTER OF INTEREST

OPEN BOARD OF EDUCATION SEAT

Hello,

I am writing to express my interest in the Board of Education vacancy. With a B.S in Engineering I may not seem like a traditional seat holder, but my wide array of professional and individual experiences would be of value to the board, and more importantly the county and its students. My ability to work closely with cross-functional teams in an industry setting would translate well to address issues and concerns of parents and students alike. As someone between the cusp of the Millennial and Gen-Z generational line I believe I hold a perspective and point of view that would understand the current youth, but also see issues through the lens of parents with school aged children now, as I may find myself in that group in the near future too.

As a non-Frederick native who now calls it home since 2021 with my wife and three dogs, we have come to love our home and community and an opportunity to help it continue to prosper is something I look forward to. Thank you for taking the time to read this short letter and I hope you are able to find a candidate that will put the best interests of students as their main priority.

Best,
Jonathan Giron-Flores
