Dear County Executive Fitzwater,

I write to you to express interest in the vacant position on the FCPS Board of Education. I am an educator who recently retired from FCPS after teaching for thirty-three years. I have the unique experience of teaching all grades from pre-K through eighth grade, including serving as a special education teacher and math specialist. Throughout my career I have been a fierce advocate for students and their best interests as well as the school system as a whole. Having been in the classroom just last year, I have first hand knowledge of the issues that schools and all stakeholders face everyday.

Please find my attached resume which outlines my experience and skill set. I believe that my background, my knowledge of our county's school system and my belief that all students and staff deserve a safe environment to teach, learn, and feel valued in their learning community could make me a valuable and credible member of the Board of Education. I welcome the opportunity to speak with you to share how I would represent all stakeholders to help FCPS to move forward providing an exceptional education to all of our students.

Sincerely yours,  
Christine Thereault.
